ACTION REQUESTED:

The superintendent is recommending that the board approve the 2020-2021 SARCs for San Juan Unified School District schools.

RATIONALE/BACKGROUND:

Since November 1988, state law has required all public schools receiving state funding to prepare and distribute a SARC. The purpose of the report card is to provide parents and the community with important information about each public school, including its progress in achieving goals. The public may also use a SARC to evaluate and compare schools on a variety of indicators. SARCs being published in 2020-2021 contain data from the 2019-2020 school year. SARC information includes a school profile, mission statement, demographic data, school safety and climate for learning information, academic data (overall state test results and disaggregated by groups), federal and state accountability status, school completion rates, class sizes, teacher and staff information, curriculum and instruction descriptions and fiscal and expenditure data.

SARCs are updated annually and posted by February 1. Translated SARCs are made available for schools where 15% or more of the families speak a language other than English. In San Juan Unified, SARCs can be accessed on the website for each school under Our School by selecting Assessment Data. SARCs for each school can also be accessed on the following page: www.sanjuan.edu/Page/660.

The superintendent is recommending that the board approve the California Environmental Quality Act (CEQA) Notice of Exemption for the Howe Avenue Elementary School Portable Classroom Addition Project.

RATIONALE/BACKGROUND:

The project involves installing one new portable classroom in a vacant area of the school campus that is currently composed of turf grass, next to three existing portable classrooms at the north end of the campus. The school property consists of approximately 13.8 acres, but the southern approximately 5 acres is being used as part of Howe Community Park.

The new portable classroom would meet all requirements of the Division of the State Architect (DSA). Underground utility connections with existing utility providers would be installed, as needed, to service the new portable classroom.

Name of Person or Agency Carrying Out Project: San Juan Unified School District

Name of Public Agency Approving Project: San Juan Unified School District

Exempt Status: (check one)

-
- Ministerial Project (Section 21080[b][1]; 15268)
- Categorically Exempt (Section 15314)
- Declared Emergency (Section 21080[b][3]; 15269[a])
- Emergency Project (Section 21080[b][4]; 15269[b][c])
- Statutory Exemption (Public Resources Code Section 21080.35)
- The project clearly will not have a significant effect on the environment (15061[b][3])
-

Reasons why project is exempt: CEQA Guidelines Sections 15300–15332 include a list of classes of projects that have been determined not to have a significant effect on the environment and that are categorically exempt from the provisions of CEQA.

The project is exempt under the following section of the CEQA Guidelines: 15314 (Class 14—Minor Additions to Schools). The project meets the conditions for a categorical exemption described in this section of the CEQA Guidelines, as explained below.

- (1) Class 14 consists of minor additions to existing schools within existing school grounds where the addition does not increase original student capacity by more**

than 25 percent or 10 classrooms, whichever is less. The addition of portable classrooms is included in this exemption.

Howe Avenue Elementary serves students in Kindergarten through 5th grade. The project is intended to provide one additional portable classroom on the existing school campus. The total enrollment during the 2019-2020 school year was 798 students.¹ Assuming 26 students per classroom and 36 existing classrooms, the existing school capacity is 936 students, and the proposed project would expand the existing student capacity by 26 students. This represents an increase of approximately 3 percent of the total school capacity. Therefore, the proposed project would not increase the student capacity by more than 25 percent or 10 classrooms.

(2) The project is consistent with applicable general plan designation, applicable policies, and applicable zoning designation and regulations.

The Howe Avenue Elementary School campus is zoned by Sacramento County as Residential/Recreation (RD-5/O). The southern portion of the school property is being used as part of Howe Community Park. The school campus is designated for Low Density Residential uses under the 2030 Sacramento County General Plan and Recreational uses under the Arden-Arcade Community Plan. Under the current (2020) Sacramento County Zoning Code, public, K-12 schools are not allowed on parcels zoned for recreational use. However, the school was constructed in 1951; 13 years prior to the first Sacramento County General Plan and nearly 30 years prior to the Arden-Arcade Community Plan. The construction of an additional portable classroom building in the northern portion of the existing campus, adjacent to the existing school buildings and other portable classrooms, would be consistent with the existing school use, which has been ongoing since 1951, and does not create any conflict that would lead to any environmental impact.

(3) The project site has no value as habitat for endangered, rare, or threatened species.

The project site is fully developed as a school campus with associated urban landscaping (consisting primarily of turf grass, with shade trees along the perimeter and ornamental shrubs around the buildings). The project would be confined to a small area in the northern portion of the existing Howe Avenue Elementary School campus, in an open, grassy area that includes three portable classrooms. The proposed additional portable classroom would be installed immediately adjacent to the existing three portable classrooms. No trees would be removed.

Chicken Ranch Slough is a small creek that flows through Howe Community Park, approximately 1,200 feet (0.25 mile) southeast of the proposed portable classroom construction site. The creek is surrounded by tall, mature shade trees, turf grass, paved pedestrian paths, and a pond with a fishing pier.

The project would be confined to the northern portion of the existing Howe Avenue Elementary School campus, in the area where all of the existing school buildings are located. Existing commercial development is present immediately north of the school campus. Existing low-density residential development is present approximately 225 feet east of the proposed portable classroom. Howe Avenue is on the west side of the campus.

¹ California Department of Education. 2020. 2019-20 Enrollment by Grade. Available: <https://dq.cde.ca.gov/dataquest/dqcensus/EnrEthGrd.aspx?cds=34674476034623&aglevel=school&year=2019-20>.

The project site does not contain any sensitive habitat or habitat for special-status species. Thus, the project site has no value for endangered, rare, or threatened species.

Exceptions to the Exemptions

Certain exceptions to the use of a categorical exemption are found in CEQA Guidelines Section 15300.2. The District has determined that the project is not subject to any of these exceptions for the reasons discussed below.

- (a) *Location. Classes 3, 4, 5, 6, and 11 are qualified by consideration of where the project is to be located – a project that is ordinarily insignificant in its impact on the environment may in a particularly sensitive environment be significant. Therefore, these classes are considered to apply all instances, except where the project may impact on an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies.*

This exception only applies to Classes 3, 4, 5, 6, and 11. These classifications do not apply to this project; therefore, this exception is not discussed further.

- (b) *Cumulative Impact. All exemptions for these classes are inapplicable when the cumulative impact of successive projects of the same type in the same place, over time, is significant.*

The proposed project would involve installing an approximately 1,100-square-foot portable classroom on the existing school campus to provide for the educational needs of District students. No existing classrooms would be removed. The project would not contribute to any cumulative environmental impacts due to the small size of the project and the lack of significant environmental impacts.

- (c) *Significant Effect. A categorical exemption shall not be used for an activity where there is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.*

There are no unusual circumstances at the project site or part of project operations that would result in significant effects on the environment. The project site is currently developed with an existing school campus and would continue to be used as a school. The project would be constructed within the northern portion of the school campus where the existing buildings are located. There are no sensitive natural resources, hazardous materials sites, areas of severe geologic constraints, cultural or tribal resources, or agricultural resources on this existing developed school site that would be affected by the project.

Noise/Traffic

Existing low-density residential development is present approximately 225 feet east of the proposed portable classroom. Howe Avenue, which is a high-volume, four-lane arterial, is immediately adjacent to the school campus to the west and is the dominant noise source. Howe Community Park (which includes outdoor baseball/softball fields, soccer fields, volleyball courts, and tennis courts), abuts the school campus to the south. When outdoor sporting events occur at the park, they result in a source of existing noise. Commercial development, including a truck dock with loading bays, abuts the school campus to the north, immediately adjacent to the proposed portable classroom site.

Given the minor amount of short-term construction associated with the proposed project and the surrounding existing noise levels, project-related construction noise would not exceed Sacramento County noise thresholds. Because no new outdoor school uses are included as

part of proposed project, operational noise levels at the school campus would be similar to existing conditions.

The minor increase in school capacity (26 additional students) would not substantially change traffic conditions in a way that would affect traffic noise in the vicinity of the project site.

No roads would be closed during construction, and all construction personnel and equipment would be confined to the school property.

Forestry Resources

The project site is developed with an existing K-5 school and supporting facilities such as outdoor play areas, roads, and parking lots. The project site does not support 10 percent native tree cover, does not allow for management of one or more forest resources, and does not include habitat for sensitive plant or animal species. No existing trees on the school campus would be removed to accommodate the proposed facilities.

Aesthetics/Recreation

Howe Community Park abuts the Howe Avenue Elementary School campus on the south side. The park includes four baseball/softball fields, two volleyball courts, tennis courts, soccer fields, a pond with a fishing pier, gazebo, dog park, playgrounds, community center, paved pedestrian paths, picnic tables and barbeques, open play areas, restrooms, and the streambed of Chicken Ranch Slough. Because all construction activities and equipment would be confined to the northern portion of the existing school campus, no part of Howe Community Park would require closure. Project-related construction activities would take place approximately 450 feet northwest of the park, at the closest point. Recreationists using the park during construction activities would likely experience minor effects from construction noise, dust, and the visual presence of construction equipment and personnel. However, these effects would be minor and short-term. At the conclusion of project-related activities, the new portable classroom building would be visible from the park. However, the new portable classroom (approximately 1,100 square feet) would be consistent in scale and appearance with existing school campus buildings and the existing adjacent three portable classrooms. Therefore, the visual appearance of the new portable classroom building would not substantially detract from public views in Howe Community Park and would be visually consistent with typical school campus development that is already present adjacent to the park to the north.

Hydrology/Water Quality

Chicken Ranch Slough flows through Howe Community Park, approximately 1,200 feet southeast of the proposed classroom building. The park contains numerous large, mature shade trees and turf grass. The streambed of Chicken Ranch Slough is designed by the Federal Emergency Management Agency as a 100-year floodplain.² However, the school property is designated as an area that is not subject to flood hazards.² Most of the school property is vegetated with turf grass; a few shade trees are present along the perimeter of the property, in the parking area, and inside the courtyards of the school buildings. The existing on-site underground storm drain system would continue to be used. Installation of the new portable classroom would result in a minor operational increase in the amount of on-site impervious surfaces (approximately 1,100 square feet). However, approximately 1.4 acres of the school property would continue to be vegetated with turf grass, which would help to absorb stormwater runoff and naturally filter any urban pollutants. This runoff would then percolate back into the groundwater aquifer. Only a very small area of earthmoving activities would be required for

² Federal Emergency Management Agency. 2012. Flood Insurance Rate Map. Available: <https://msc.fema.gov/portal/home>.

project construction (less than 0.1 acre). Furthermore, the project site is flat and consists of a hard-packed earthen play area; thus, the project site is not subject to substantial erosion hazards. The project would not substantially alter the on-site stormwater drainage system in a manner that would result in downstream erosion or flooding, or create additional runoff that would exceed the capacity of existing storm drainage conveyance systems. Therefore, the project would not violate any water quality standards or waste discharge requirements or otherwise substantially degrade surface or ground water quality.

Biological Resources

The proposed project would be constructed approximately 1,200 feet northwest of Chicken Ranch Slough, in an area composed of turf grass immediately adjacent to the existing school buildings. The project site is fully developed with existing school uses and does not contain any sensitive habitat or habitat for special-status species.

Utilities

The project site is already served by existing potable water, sewer, and electrical utilities, and only minor tie-ins to existing facilities would be necessary to provide service for the new portable classroom. The District would coordinate with existing service providers to determine the most appropriate types of new connections to the existing sewer, water, and electrical systems for the new classroom. The sewer and water connections required to serve the portable classroom, along with a new connection to the on-site storm drainage system to serve the portable classroom, would not result in operational impacts that would significantly increase the amount of stormwater runoff, require additional supplies of potable water, or require additional wastewater treatment capacity at the Sacramento Regional Wastewater Treatment Plant.

The District would coordinate the minor additional fire-flow requirements and the connection with existing fire lanes to access the additional portable classroom with the Sacramento Metropolitan Fire District. Facilities would be constructed to meet County Fire Protection Standards.

All aspects of the portable classroom facility would comply with the requirements of the current California Building Standards Code and the Uniform Building Code.

Air Quality/Greenhouse Gasses

The proposed construction effort is not large enough to result in significant short-term construction-related or long-term operation-related air quality or greenhouse gas emissions. The project would implement Sacramento Metropolitan Air Quality Management District Basic Construction Emission Control Practices during construction, which include watering of exposed surfaces for dust control, minimizing idling time to five minutes or less, and covering all exposed surfaces.

- (d) ***Scenic Highways. A categorical exemption shall not be used for a project which may result in damage to scenic resources, including but not limited to, trees, historic buildings, rock outcroppings, or similar resources, within a highway officially designated as a state scenic highway. This does not apply to improvements which are required as mitigation by an adopted negative declaration or certified EIR.***

The project site is not visible from any state- or locally-designated scenic highway. The closest state-designated scenic highway to the school site is State Route 160 near Freeport, which is approximately 20 miles to the southwest. The County-designated scenic corridor portion of Garden Highway is approximately 10 miles to the west.

(e) Hazardous Waste Sites. A categorical exemption shall not be used for a project located on a site which is included on any list compiled pursuant to Section 65962.5 of the Government Code.

Based on a review of hazardous materials databases maintained by the State Water Resources Control Board³ and the California Department of Toxic Substances Control⁴, there are no open, active cases of hazardous materials contamination within 0.5 mile of the Howe Avenue Elementary School campus. However, a closed site with known hazardous materials contamination is present at the ARCO gas station approximately 275 feet north of the Howe Avenue Elementary school campus. This site experienced a leak from an underground storage tank in the late 1990s. Total petroleum hydrocarbons as gasoline, benzene, and methyl tert-butyl ether (MTBE) were detected in soil and groundwater and levels above regulatory agency thresholds as recently as 2010. The leaking tank was removed, and soil and groundwater remediation were conducted. Residual contaminants are present at this site, and therefore land use controls are in place to prevent excavation or land use changes. Because the contaminated groundwater plume does not extend off the ARCO gasoline site property, this hazardous materials site does not represent a hazard for the proposed project.

Project-related activities would involve the use and temporary storage of small amounts of hazardous substances necessary for the operation of construction equipment, such as fuels, lubricants, and oils, as well as small amounts of paint and solvents. All materials are required to be used and stored in compliance with local, State, and federal ordinances, laws, regulations and policies related to hazardous materials. None of the substances would be acutely hazardous.

(f) Historical Resources. A categorical exemption shall not be used for a project which may cause a substantial adverse change in the significance of a historical resource.

The original campus buildings at Howe Avenue Elementary School were constructed in 1951 with subsequent additions in 1953, 1955, and 1964. However, campus modernizations occurred in 1994 and 2001; therefore, the campus does not constitute a historical resource. Furthermore, the proposed portable classroom would be installed in a vacant area on the school property that is composed of turf grass, immediately adjacent to three existing portable classrooms; therefore, none of the existing buildings would be affected. Therefore, the proposed project would not result in a substantial adverse change in the significance of a historical resource.

DEPARTMENT: Admissions and Family Services

ACTION REQUESTED:

The superintendent is recommending that the board review a request from San Juan Choices Charter School (CCS) to provide a one-time, off-schedule payment.

RATIONALE/BACKGROUND:

On December 15, 2020 the board approved a request from CCS to provide a one-time, off-schedule 2.0% payment to employees. In order to meet auditing documentation requirements, the language surrounding the request requires additional specificity as follows:

CCS requests the approval to provide a one-time payment to current employees equal to a flat 2% of all payments made to each CCS employee (salaries, wages and stipends) for the fiscal year ended June 30, 2020.

CCS is now requesting the board approve this additional clarity surrounding the calculation of the 2% one-time off schedule payment to current employees previously approved on December 15, 2020.

CCS has a yearly operating surplus that has been generated by school funding and enrollment growth. For fiscal year 2019-2020, CCS ended the year with a surplus of \$237,042.51, which increased the fund balance to \$1,317,936.53. The proposed one-time 2.0% of 2019-2020 total salaries, wages and stipends paid to employees as a one-time off schedule payment represents 17% of the 2019-2020 surplus, and less than 3.0% of the CCS fund balance. CCS anticipates moderate growth over the next three years, maintaining a growing fund balance during that time.

The superintendent is recommending that the board receive a report on the Title I site allocation formula for 2021-2022.

RATIONALE/BACKGROUND:

This report is a follow-up to the Title I Board Workshop held on March 10, 2020. San Juan Unified School District receives federal Title I, Part A grant funds annually. This restricted funding is generated by low-income students, distributed through the Local Educational Agency (LEA) and allocated to sites through a specific formula. The purpose of Title I funding is to ensure equitable outcomes for students from low-income families as determined by free/reduced lunch eligibility.

This shift in practice:

- Builds capacity and transparency around Title 1 site funding.
- Maximizes Title I benefit to students.
- Eliminates barriers to compliance and equity by adopting new Title I allocation model, 2021-2022.

Refining Practices Through Continuous Improvement

Purpose:

- Build capacity and transparency around Title I site funding
- Maximize Title I benefit to low-income students districtwide
- Eliminate barriers to compliance and equity by adopting new Title I allocation model, 2021-2022

Background Information

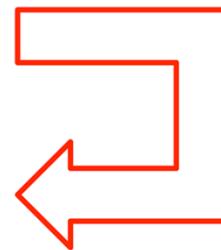

Title I

- Regulated by the Every Student Succeeds Act (ESSA)
- Federal dollars
- Support low-income students in meeting grade level standards
- Cannot supplant the core program - over and above
- Must be described in School Plan for Student Achievement (SPSA)
- Allocated to sites through a percent poverty formula
- 85% of funding must be aligned to direct services to students

Title I Allocation

- Title I federal grants are allocated to districts annually
- Required reservations of funds are taken off the initial allocation
- Allowable central reservations of funds are held to provide programs and services to low-income students districtwide
- Remaining funds are allocated to sites through a poverty ranking system and a per pupil allocation formula

Site Allocations to Eligible Title I Schools

Site Allocations to Eligible Title I Schools

- Eligible schools are ranked from highest to lowest percent poverty based on free/reduced lunch data
- The per pupil allocation (PPA) for higher poverty school students cannot be lower than the PPA at a school with a lower percent poverty ranking
- Adjustments can be made by grade spans, i.e.: elementary, middle and high school
- Site allocation is equal to the product of the per pupil expenditure and enrollment of low-income students

Site allocation is determined by the **number of low-income students** enrolled multiplied by **PPA** as determined by **percent poverty**.

Site allocation

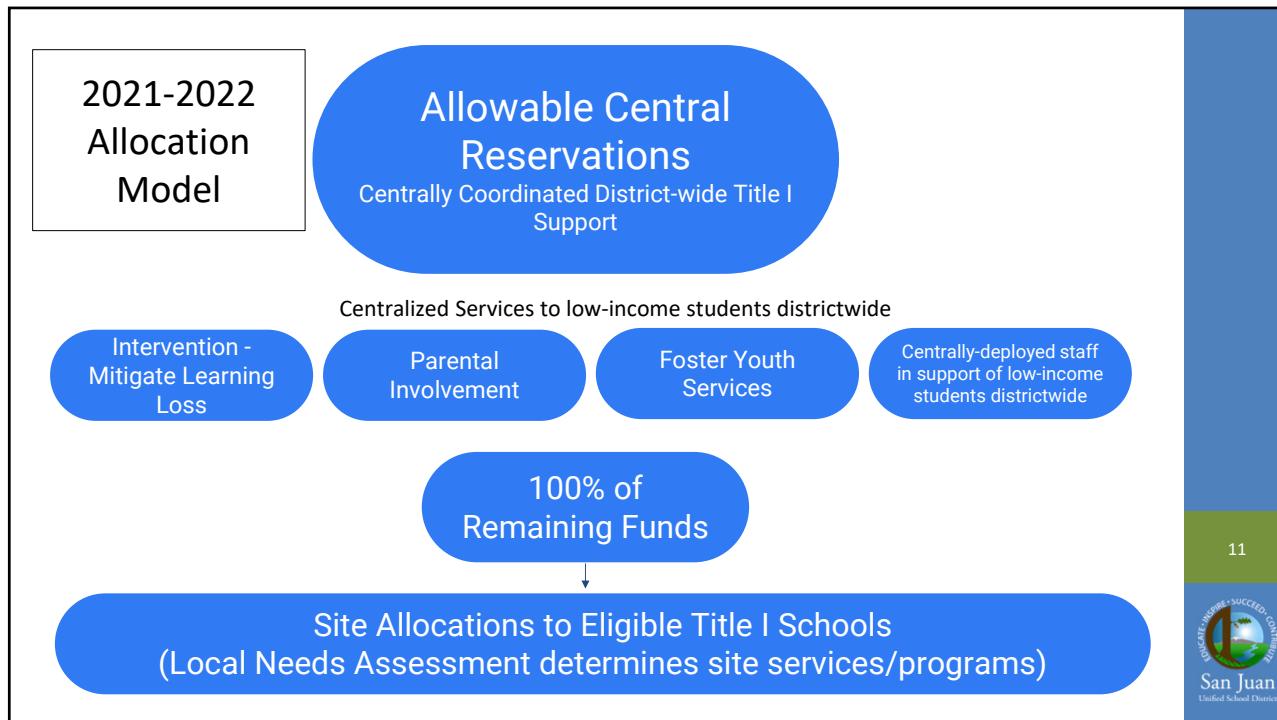

Current Site Allocation Example
Equity and Compliance Challenge

Site	2019-20 Percent Poverty	Per Pupil Allocation
Starr King	94%	\$924
Whitney Avenue	91%	\$1,081
Charles Peck	86%	\$1,200
Kingswood	83%	\$1,221
Cottage	82%	\$1,204
Carmichael	81%	\$1,048

For example, Starr King, with a poverty ranking of 94% had a PPA of \$924, while Cottage, with a poverty ranking of 82% had a PPA of \$1,204. This resulted from treating each site equally, at the central level, rather than funding based on PPA.

How the Model Supports Title I Program

- Provides opportunity for centrally funded Title I programs to serve low-income students, not attending Title I schools
- Provides for stakeholder engagement at the local level around all Title I funded site positions and programs
- Allows for sites to have local control over positions and programs to best serve the needs of their communities
- Creates an equitable PPA of resources across Title I identified sites

13

What This Change Means to Sites

- Funding that was used for centrally funded programs/services provided to sites is being translated into funds for sites
- Sites will determine programs and services through the comprehensive needs assessment process
- Most sites will have a net increase of Title I resources under this model
- If it is determined, through the needs assessment, to continue with current Title I funded programs/services, there are sufficient Title I resources to do so

14

Site Support

- In collaboration with San Juan Teachers Association (SJTA), informational sessions were presented to Title I principals and their site leadership teams
- District staff are supporting sites with planning needs
- Technical assistance and 1:1 coaching is being provided

DEPARTMENT: Schools and Labor Relations

ACTION REQUESTED:

The superintendent is recommending that the board approve the one-time, off-schedule payment of 1% as outlined in the Side Letters of Agreement with SJUSD Bargaining Units.

RATIONALE/BACKGROUND:

San Juan Unified schools ended the 2019-2020 school year and started the 2020-2021 school year in a distance learning model due to health and safety concerns due to COVID-19. The district and bargaining units mutually agree that members were critical to supporting high quality instruction and providing services and supports during these unprecedented times.

Statute requires that the public be made aware of the costs associated with a tentative collective bargaining agreement before it becomes binding on the district or county office of education. Government Code Section 3547.5 states:

"Before a public school employer enters into a written agreement with an exclusive representative covering matters within the scope of representation, the major provisions of the agreement, including, but not limited to, the costs that would be incurred by the public school employer under the agreement for the current and subsequent fiscal year, shall be disclosed at a public meeting of the public school employer in a format established for this purpose by the Superintendent of Public Instruction [G.C. 3547.5(a)]."

SIDE LETTER OF AGREEMENT (SLA)
BETWEEN
SAN JUAN UNIFIED SCHOOL DISTRICT (District)
and the
SAN JUAN TEACHERS ASSOCIATION (Association)

*Re: Calendar for the 2021-2022 School Year, additional one-time payment,
stipend for Distance Learning related expenses and bargaining*

ATTACHMENT A

Background:

San Juan Unified schools ended the 2019-20 school year and started the 2020-21 school year in a Distance Learning model due to health and safety concerns. As a result of this sudden and now prolonged change, negotiations were temporarily paused. The District and Association agree that a school calendar for the 2021-22 school year needs to be produced for planning and scheduling purposes. It is also acknowledged that Association Bargaining Unit members incurred a myriad of expenses in an effort to provide continuing high quality instruction and support to students. Finally, the District and the Association are in the second year of a two-year agreement. The negotiation teams agree to resume bargaining that was originally scheduled for the Spring of 2020.

Statement of Intent:

The District and Association mutually agree to publish a school calendar for the 2021-22 school year that is similar to the existing (2020-21) school calendar. The District and the Association also agree that all bargaining unit members should receive a stipend to off-set costs they may have incurred in the efforts to deliver high quality instruction and/or services during these unprecedented times. Furthermore the parties agree that the language in Article 8.02.4 Calendar. (Exhibit "C") will be addressed during the 2021-2022 bargaining cycle.

Finally, the parties acknowledge that calendars play a significant role in members' lives. In the event the parties do not reach a negotiated agreement by August 1, 2021 the parties agree that the District has the right to adopt a 2022-2023 calendar that will be consistent to the 2021-2022 adopted and agreed upon San Juan Unified calendar.

Agreement:

2021-22 School Year Calendar:

Please see attached calendar for details.

- First Day of Service for 186 day employees: Tuesday, August 10
- First Day of Instruction with students: Thursday August 12
- Last Day of Instruction with students: Tuesday June 7
- Last Day of Service for 186 day employees: Wednesday June 8

Additional payment/Stipend*:

All bargaining unit members will receive a one-time off-schedule payment equal to 1% of their 2020-21 base salary and stipends in contract (Exhibit D-9), as compensation for the additional time and effort directly related to the effects of COVID-19. Additionally, all bargaining unit members of the Association shall receive a pro-rata share of a \$500 stipend to help offset increased costs and expenses incurred transitioning to distance learning as a result of the COVID-19 pandemic.

**These payments may be less after taxes and will be paid within 60 calendar days of this SLA being approved by the school board.*

Bargaining:

The District and the Association agree that the bargaining teams will resume negotiations after the publication of the Governor's January proposal. The following shall be considered reopeners for both parties: Article 11 (Salary), Article 8 (Hours) and Article 9 (Employee Benefits).

ACTION REQUESTED:

The superintendent is recommending that the board approve the one-time, off-schedule payment of 1%. This payment is in alignment with Side Letters of Agreement with SJUSD Bargaining Units.

RATIONALE/BACKGROUND:

San Juan Unified schools ended the 2019-2020 school year and started the 2020-21 school year in a distance learning model due to health and safety concerns due to COVID-19. The district affirms that members were critical to supporting high quality instruction and providing services and supports during these unprecedented times.

Statute requires that the public be made aware of the costs associated with a tentative collective bargaining agreement before it becomes binding on the district or county office of education. Government Code Section 3547.5 states:

"Before a public school employer enters into a written agreement with an exclusive representative covering matters within the scope of representation, the major provisions of the agreement, including, but not limited to, the costs that would be incurred by the public school employer under the agreement for the current and subsequent fiscal year, shall be disclosed at a public meeting of the public school employer in a format established for this purpose by the Superintendent of Public Instruction [G.C. 3547.5(a)]."

Board Policy

Investing And Debt Management

BP 3430

Business and Noninstructional Operations

Investing

The superintendent or designee may invest as permitted by law all or part of the special reserve fund of the district or any surplus monies not required for the immediate necessities of the district. Such investments must be made with care, skill, prudence and diligence. (Education Code section 41015; Government Code sections 16430, 53601-53609, 53635)

The Governing Board recognizes that the district's chief fiscal officer has fiduciary responsibility for any funds invested outside the county treasury and is subject to prudent investor standards for investment decisions. As such, the chief fiscal officer he/she shall act with care, skill, prudence, and diligence under the prevailing circumstances, including but not limited to the general economic conditions and the anticipated needs of the district. The investment objectives shall be to first safeguard the principal of the funds, then to meet the district's liquidity needs and, third, to achieve a return on the funds. (Government Code sections 53600.3, 53600.5) County treasury investment reports shall be shared with the board quarterly. Reports of funds invested outside the county treasury shall be provided to the board monthly.

The board recognizes the importance of overseeing investments made with district funds, including investments by the county treasurer. The superintendent or designee shall maintain ongoing communication with any county committee established for the purpose of overseeing county investments. In addition, the superintendent or designee shall keep the board informed about county policies that guide the investment of these funds.

The superintendent or designee may annually provide to the board and any oversight committee a statement of the district's investment policy which the board shall consider at a public meeting. Any changes in the policy shall also be considered by the board at a public meeting. In accordance with law and administrative regulations, the superintendent or designee may also provide the board quarterly reports with specified components, including a statement of how the district portfolio compares with the district's investment policy. (Government Code section 53646)

Debt Management

This debt policy sets forth a set of comprehensive guidelines for short-term and long-term debt. It is the objective of this policy to incorporate the new Local Debt Policy requirements of Government Code section 8855(i) into the district's previously existing policy.

| The district's capital planning goals and objectives (Government Code section 8855(i)(1)(D)) are as follows:

1. The district shall obtain financing only when necessary or desirable as determined by the Board of Education.
2. The district will identify the appropriate timing and amount of debt or other financing needs as required.
3. The district will pursue efficient debt issuance strategies, and obtain favorable interest rates and other costs in issuing the debt.

| The superintendent or designee, chief financial officer, and director of accounting will have the primary responsibility for developing financing recommendations and ensuring the implementation of this debt policy. The responsibilities include:

1. Reviewing the district's capital improvement program and consider the need for financing to maintain the progress on the capital improvement program.
2. Developing a Request for Proposal (RFP) that will be used in the selection of bond counsel, financial advisor and/or underwriter if necessary.
3. Selecting the financing participants for each debt issue, ensuring the debt issue is integrated with the district's overall financing program, approving the structure of each debt issue, and reviewing and approving all documentation for each issue.
4. Overseeing the preparation of the information for the official statement for debt issues.
5. Meeting as necessary in preparation for a financing or to review changes in state or federal laws or regulations.
6. Preparing all information for the bond rating agencies and making presentations as necessary.
7. Administering post debt issuance responsibilities, including the investment and expenditure of the debt proceeds, compliance with annual reporting requirements, and taking steps to help ensure that debt payments are made on time.
8. Ensuring that the arbitrage requirements are monitored and that the appropriate reports are filed with the federal government.
9. Implementing and managing internal control procedures to ensure that the proceeds of proposed debt will be directed to the intended use. (Government Code section 8855(i)(1)(E)).

| Bond Counsel

The district will seek the legal advice of the bond counsel on questions involving state and federal law on proposed and outstanding debt issuances. Bond counsel will prepare the resolutions, legal documents, and opinions necessary for delivery of a valid debt issuance. The bond counsel will determine the district's compliance with all applicable laws and procedures for issuing debt. At the district's discretion, bond counsel may also serve as disclosure counsel, and prepare the documents traditionally performed in this capacity including delivery of the Official Statement, Bond Purchase Agreement, and Notice of Sale, and Continuing Disclosure Agreement. The bond counsel will perform other services as defined by the contract approved by the district.

Financial Advisor/Underwriter

District staff will seek the advice of a financial advisor and/or underwriter when necessary. The financial advisor will advise on the structuring of the debt obligations that will be issued, inform the district of the options available for each issue, advise the district as to how choices will impact the marketability of the district's obligations, and provide other services as defined by the contract approved by the district.

Use of Short- and Long-Term Debt

The district's debt policy for the use of Short Term Operating Debt and Long Term Capital Debt (Government Code section 8855(i)(1)(A)) are provided below.

1. Short-Term Debt

Internal interim financing - In order to defer the issuance of debt obligations, when sufficient non-restricted funds are on hand, consideration will be given to appropriating them to provide interim financing for large construction projects. When the debt obligation is subsequently issued, the non-restricted funds will be repaid.

~~(cf. 3460 – Periodic Financial Reports and Accountability)~~

External interim financing - Expenditures associated with the day-to-day operations of the district will be covered by current revenues. However, because the district does not receive its revenues in equal installments each month and the largest expenditures occur in equal amounts, the district may experience temporary cash shortfalls. To finance these temporary cash shortfalls, the district may incur short-term operating debt, typically, tax and revenue anticipation notes (TRANS). The district will base the amount of the short-term operating debt on cash flow projections for the fiscal year and will comply with applicable federal and state regulations. The district will pledge operating revenues to repay the debt, which will be repaid in one year or less. The district will minimize the cost of the short-term borrowings to the extent possible and may participate in pooled TRANS to meet this goal.

2. Long-term Capital Debt

Prior to issuing debt, the district will examine the relationship of the debt to be issued

with the consideration to its capital improvement plan. (Government Code section 8855(i)(1)(C))– It will consider the following factors as part of its evaluation:

- a. The district will not use long-term obligations for operating purposes.
- b. The weighted average maturity will not exceed 120 percent of the remaining expected useful life of the project financed.
- c. The district will structure debt in a manner that maximizes debt proceeds, minimizes interest costs, and allows for future debt issuances. The debt structure will also reflect the financing needs and projected ability to make debt payments through the repayment of the debt issued.
- d. The district will not issue unfunded long-term debt in excess of 3 percent of annual general fund revenues, unless there is a dedicated tax levy, surplus property sale, fixed lease payments from another public agency or redevelopment revenue stream committed to service the debt.

Types of Debt

Described below are the types of debt that may be issued under this debt policy. (Government Code section 8855(i)(1)(B))–

1. General obligation bonds, lease revenue bonds, certificates of participation, lease purchase transactions, land secured financings, and bond, lease or grant anticipation notes that may be issued to finance significant capital improvements. The district will primarily rely on the issuance of general obligation bonds to fund its capital projects. All projects financed by general obligation bonds will be determined by the district's project list approved by the voters, the constraints of applicable law, and district's priorities.

Whenever the option exists to offer an issue either for competition or negotiation, the superintendent or designee, the chief financial officer, and director of accounting will undertake an analysis of the options to aid in the decision making process.

2. Refundings

The district will consider refunding debt whenever an analysis indicates the potential for present value savings of approximately four percent of the principal being refunded or at least \$200,000. The financial advisor will compute the economic gain or loss on the refunding and the superintendent or designee, the chief financial officer, and director of accounting will verify the computation.

3. Capital Leases

Capital leasing is an option for the acquisition of equipment or other assets with a cost of less than \$500,000.

The district will not consider leasing when there are available funds on hand for the acquisition unless the interest expense associated with the lease is less than the interest that can be earned by investing the funds on hand or when other factors such as budget constraints override the economic consideration.

When a lease is arranged with a private sector entity, the district will seek a tax-exempt rate. When a lease is arranged with a government or other tax-exempt entity, the district will try to obtain an explicitly defined taxable rate so that the lease will not be counted in the district's total annual borrowings subject to arbitrage rebate.

The lease agreement will permit the district to refinance the lease at no more than reasonable cost. A lease that can be called at will is preferable to one that can merely be accelerated.

Method of Sale

When feasible and economical, the district may issue bonds either by competitive or negotiated sale. Whenever the option exists to offer an issue either for competition or negotiation, the superintendent or designee, the chief financial officer, and director of accounting will undertake an analysis of the options to aid in the decision making process.

District staff may use a private placement by obtaining at least three competitive proposals. In evaluating the proposals, the net present value of the competitive bids will be compared, taking into account how and when the payments are made. If required by statute, the purchase price of equipment will be competitively bid.

Bond Rating

District staff will monitor its credit ratings, and provide all information relevant for the purposes of obtaining, maintaining, and improving its credit ratings.

Arbitrage Liability Management

The district will make every effort to minimize the cost of the arbitrage rebate and yield restriction while strictly complying with the law. The federal arbitrage law is intended to discourage entities from issuing tax exempt obligations unnecessarily. In complying with the spirit of the law, the district will not issue obligations except for identifiable projects with very good prospects of timely initiation. Obligations will be issued as closely in time as feasible to the time contracts are awarded so as to minimize the time the debt proceeds are unspent.

The district's bond counsel and financial advisor will review, in advance, all arbitrage rebate payments and forms sent to the IRS.

SACRAMENTO COUNTY

Annual Investment Policy

of the Pooled Investment Fund

CALENDAR YEAR 2020

I. Authority

Under the Sacramento County Charter, the Board of Supervisors established the position of Director of Finance and by ordinance will annually review and renew the Director of Finance's authority to invest and reinvest all the funds in the County Treasury.

II. Policy Statement

This Investment Policy (Policy) establishes cash management and investment guidelines for the Director of Finance, who is responsible for the stewardship of the Sacramento County Pooled Investment Fund. Each transaction and the entire portfolio must comply with California Government Code and this Policy. All portfolio activities will be judged by the standards of the Policy and its investment objectives. Activities that violate its spirit and intent will be considered contrary to the Policy.

III. Standard of Care

The Director of Finance is the Trustee of the Pooled Investment Fund and therefore, a fiduciary subject to the prudent investor standard. The Director of Finance, employees involved in the investment process, and members of the Sacramento County Treasury Oversight Committee (Oversight Committee) shall refrain from all personal business activities that could conflict with the management of the investment program. All individuals involved will be required to report all gifts and income in accordance with California state law. When investing, reinvesting, purchasing, acquiring, exchanging, selling and managing public funds, the Director of Finance shall act with care, skill, prudence, and diligence to meet the aims of the investment objectives listed in Section IV, Investment Objectives.

IV. Investment Objectives

The Pooled Investment Fund shall be prudently invested in order to earn a reasonable return, while awaiting application for governmental purposes. The specific objectives for the Pooled Investment Fund are ranked in order of importance.

A. Safety of Principal

The preservation of principal is the primary objective. Each transaction shall seek to ensure that capital losses are avoided, whether they be from securities default or erosion of market value.

B. Liquidity

As a second objective, the Pooled Investment Fund should remain sufficiently flexible to enable the Director of Finance to meet all operating requirements that may be reasonably anticipated in any depositor's fund.

C. Public Trust

In managing the Pooled Investment Fund, the Director of Finance and the authorized investment traders should avoid any transactions that might impair public confidence in Sacramento County and the participating local agencies. Investments should be made with precision and care, considering the probable safety of the capital as well as the probable income to be derived.

D. Maximum Rate of Return

As the fourth objective, the Pooled Investment Fund should be designed to attain a market average rate of return through budgetary and economic cycles, consistent with the risk limitations, prudent investment principles and cash flow characteristics identified herein. For comparative purposes, the State of California Local Agency Investment Fund (LAIF) will be used as a performance benchmark. The Pooled Investment Fund quarterly performance benchmark target has been set at or above LAIF's yield. This benchmark was chosen because LAIF's portfolio structure is similar to the Pooled Investment Fund.

V. Pooled Investment Fund Investors

The Pooled Investment Fund investors are comprised of Sacramento County, school and community college districts, districts directed by the Board of Supervisors, and independent special districts whose treasurer is the Director of Finance. Any local agencies not included in this category are subject to California Government Code section 53684 and are referred to as outside investors.

VI. Implementation

In order to provide direction to those responsible for management of the Pooled Investment Fund, the Director of Finance has established this Policy and will provide it to the Oversight Committee and render it to legislative bodies of local agencies that participate in the Pooled Investment Fund. In accordance with California Government Code section 53646, et seq., the Board of Supervisors shall review and approve this Policy annually.

This Policy provides a detailed description of investment parameters used to implement the investment process and includes the following: investable funds; authorized instruments; prohibited investments; credit requirements; maximum maturities and concentrations; repurchase agreements; Community Reinvestment Act Program; criteria and qualifications of broker/dealers and direct issuers; investment guidelines, management style and strategy; Approved Lists; and calculation of yield and costs.

VII. Internal Controls

The Director of Finance shall establish internal controls to provide reasonable assurance that the investment objectives are met and to ensure that the assets are protected from loss, theft, or misuse. To assist in implementation and internal controls, the Director of Finance has established an Investment Group and a Review Group.

The Investment Group, which is comprised of the Director of Finance and his/her designees, is responsible for maintenance of the investment guidelines and Approved Lists. These guidelines and lists can be altered daily, if needed, to adjust to the ever-changing financial markets. The guidelines can be more conservative or match the policy language. In no case can the guidelines override the Policy.

The Review Group, which is comprised of the Director of Finance and his/her designees, is responsible for the monthly review and appraisal of all the investments purchased by the Director of Finance and staff. This review includes bond proceeds, which are invested separately from the Pooled Investment Fund and are not governed by this Policy.

The Director of Finance shall establish a process for daily, monthly, quarterly, and annual review and monitoring of the Pooled Investment Fund activity. The following articles, in order of supremacy, govern the Pooled Investment Fund:

1. California Government Code
2. Annual Investment Policy
3. Current Investment Guidelines
4. Approved Lists (see page 9, Section IX.K)

The Director of Finance shall review the daily investment activity and corresponding bank balances.

Monthly, the Review Group shall review all investment activity and its compliance to the corresponding governing articles and investment objectives.

Quarterly, the Director of Finance will provide the Oversight Committee with a copy of the Pooled Investment Fund activity and its compliance to the annual Policy and California Government Code.

Annually, the Oversight Committee shall cause an annual audit of the activities within the Pooled Investment Fund to be conducted to determine compliance to the Policy and California Government Code. This audit will include issues relating to the structure of the investment portfolio and risk.

All securities purchased, with the exception of bank deposits, money market mutual funds, and LAIF, shall be delivered to the independent third-party custodian selected by the Director of Finance. This includes all collateral for repurchase agreements. All trades, where applicable, will be executed by delivery versus payment by the designated third-party custodian.

VIII. Sacramento County Treasury Oversight Committee

In accordance with California Government Code section 27130 et seq., the Board of Supervisors, in consultation with the Director of Finance, has created the Sacramento County Treasury Oversight Committee (Oversight Committee). Annually, the Director of Finance shall prepare an Investment Policy that will be forwarded to and monitored by the Oversight Committee and rendered to Boards of all local agency participants. The Board of Supervisors shall review and approve the Policy during public session. Quarterly, the Director of Finance shall provide the Oversight Committee a report of all investment activities of the Pooled Investment Fund to ensure compliance to the Policy. Annually, the Oversight Committee shall cause an audit to be conducted on the Pooled Investment Fund. The meetings of the Oversight Committee shall be open to the public and subject to the Ralph M. Brown Act.

A member of the Oversight Committee may not be employed by an entity that has contributed to the campaign of a candidate for the office of local treasurer, or contributed to the campaign of a candidate to be a member of a legislative body of any local agency that has deposited funds in the county treasury, in the previous three years or during the period that the employee is a member of the Oversight Committee. A member may not directly or indirectly raise money for a candidate for local treasurer or a member of the Sacramento County Board of Supervisors or governing board of any local agency that has deposited funds in the county treasury while a member of the Oversight Committee. Finally, a member may not secure employment with, or be employed by bond underwriters, bond counsel, security brokerages or dealers, or financial services firms, with whom the treasurer is doing business during the period that the person is a member of the Oversight Committee or for one year after leaving the committee.

The Oversight Committee is not allowed to direct individual investment decisions, select individual investment advisors, brokers or dealers, or impinge on the day-to-day operations of the Department of Finance treasury and investment operations.

IX. Investment Parameters

A. Investable Funds

Total Investable Funds (TIF) for purposes of this Policy are all Pooled Investment Fund moneys that are available for investment at any one time, including the estimated bank account float. Included in TIF are funds of outside investors, if applicable, for which the Director of Finance provides investment services. Excluded from TIF are all funds held in separate portfolios.

The Cash Flow Horizon is the period in which the Pooled Investment Fund cash flow can be reasonably forecasted. This Policy establishes the Cash Flow Horizon to be one (1) year.

Once the Director of Finance has deemed that the cash flow forecast can be met, the Director of Finance may invest funds with maturities beyond one year. These securities will be referred to as the Core Portfolio.

B. Authorized Investments

Authorized investments shall match the general categories established by the California Government Code sections 53601 et seq. and 53635 et seq. Authorized investments shall include, in accordance with California Government Code section 16429.1, investments into LAIF. Authorization for specific instruments within these general categories, as well as narrower portfolio concentration and maturity limits, will be established and maintained by the Investment Group as part of the Investment Guidelines. As the California Government Code is amended, this Policy shall likewise become amended.

C. Prohibited Investments

No investments shall be authorized that have the possibility of returning a zero or negative yield if held to maturity. These shall include inverse floaters, range notes, and interest only strips derived from a pool of mortgages.

All legal investments issued by a tobacco-related company are prohibited. A tobacco-related company is defined as an entity that makes smoking products from tobacco used in cigarettes, cigars, or snuff or for smoking in pipes. The tobacco-related issuers restricted from any investment are any component companies in the Dow Jones U.S. Tobacco Index or the NYSE Arca Tobacco Index. Annually the Director of Finance and/or his designee will update the list of tobacco-related companies.

D. Credit Requirements

Except for municipal obligations and Community Reinvestment Act (CRA) bank deposits and certificates of deposit, the issuer's short-term credit ratings shall be at or above A-1 by Standard & Poor's, P-1 by Moody's, and, if available, F1 by Fitch, and the issuer's long-term credit ratings shall be at or above A by Standard & Poor's, A2 by Moody's, and, if available, A by Fitch. There are no credit requirements for Registered State Warrants. All other municipal obligations shall be at or above a short-term rating of SP-1 by Standard & Poor's, MIG1 by Moody's, and, if available, F1 by Fitch. In addition, domestic banks are limited to those with a Fitch Viability rating of a or better, without regard to modifiers. The Investment Group is granted the authority to specify approved California banks with Fitch Viability ratings of bbb+ but they must have a Support rating of 1 where appropriate. Foreign banks with domestic licensed offices must have a Sovereign rating of AAA from Standard and Poor's, Moody's, or Fitch and a Fitch Viability rating of a or better, without regard to modifiers; however, a foreign bank may have a rating of bbb+ but they must have a Support rating of 1. Domestic savings banks must be rated a or better, without regard to modifiers, or may have a rating of bbb+ but they must a Support rating of 1.

Eligible banks must have Community Reinvestment Act performance ratings of “satisfactory” or “outstanding” from each financial institution’s regulatory authority. In addition, deposits greater than the federally-insured amount must be collateralized. Banks must place securities worth between 110% and 150% of the value of the deposit with the Federal Reserve Bank of San Francisco, the Home Loan Bank of San Francisco, or a trust bank.

Since credit unions do not have Community Reinvestment Act performance ratings, they must demonstrate their commitment to meeting the community reinvestment lending and charitable activities, which are also required of banks.

All commercial paper and medium-term note issues must be issued by corporations operating within the United States and having total assets in excess of one billion dollars (\$1,000,000,000).

The Investment Group may raise these credit standards as part of the Investment Guidelines and Approved Lists. Appendix A provides a Comparison and Interpretation of Credit Ratings by Standard & Poor’s, Moody’s, and Fitch.

E. Maximum Maturities

Due to the nature of the invested funds, no investment with limited market liquidity should be used. Appropriate amounts of highly-liquid investments, such as Treasury and Agency securities, should be maintained to accommodate unforeseen withdrawals.

The maximum maturity, determined as the term from the date of ownership to the date of maturity, for each investment shall be established as follows:

U.S. Treasury and Agency Obligations	5 years
Washington Supranational Obligations ¹	5 years
Municipal Notes	5 years
Registered State Warrants.....	5 years
Bankers Acceptances	180 days
Commercial Paper	270 days
Negotiable Certificates of Deposit.....	180 days
CRA Bank Deposit/Certificates of Deposit	1 year
Repurchase Agreements	1 year
Reverse Repurchase Agreements	92 days
Medium-Term Corporate Notes	180 days
Collateralized Mortgage Obligations	180 days

The Investment Group may reduce these maturity limits to a shorter term as part of the Investment Guidelines and the Approved Lists.

The ultimate maximum maturity of any investment shall be five (5) years. The dollar-weighted average maturity of all securities shall be equal to or less than three (3) years.

F. Maximum Concentrations

No more than 80% of the portfolio may be invested in issues other than United States Treasuries and Government Agencies. The maximum allowable percentage for each type of security is set forth as follows:

U.S. Treasury and Agency Obligations	100%
Municipal Notes	80%
Registered State Warrants.....	80%
Bankers Acceptances	40%
Commercial Paper	40%
Washington Supranational Obligations.....	30%
Negotiable Certificates of Deposit and CRA Bank Deposit/Certificates of Deposit .	30%
Repurchase Agreements	30%
Reverse Repurchase Agreements	20%
Medium-Term Corporate Notes	30%
Money Market Mutual Funds.....	20%
Collateralized Mortgage Obligations	20%
Local Agency Investment Fund (LAIF)	(per State limit)

The Investment Group may reduce these concentrations as part of the Investment Guidelines and the Approved Lists.

¹ The International Bank for Reconstruction and Development, International Finance Corporation, and Inter-American Development Bank.

No more than 10% of the portfolio, except Treasuries and Agencies, may be invested in securities of a single issuer including its related entities.

Where a percentage limitation is established above, for the purpose of determining investment compliance, that maximum percentage will be applied on the date of purchase.

G. Repurchase Agreements

Under California Government Code section 53601, paragraph (j) and section 53635, the Director of Finance may enter into Repurchase Agreements and Reverse Repurchase Agreements. The maximum maturity of a Repurchase Agreement shall be one year. The maximum maturity of a reverse repurchase agreement shall be 92 days, and the proceeds of a reverse repurchase agreement may not be invested beyond the expiration of the agreement. The reverse repurchase agreement must be "matched to maturity" and meet all other requirements in the code.

All repurchase agreements must have an executed Sacramento County Master Repurchase Agreement on file with both the Director of Finance and the Broker/Dealer. Repurchase Agreements executed with approved broker-dealers must be collateralized with either: (1) U.S. Treasuries or Agencies with a market value of 102% for collateral marked to market daily; or (2) money market instruments which are on the Approved Lists of the County and which meet the qualifications of the Policy, with a market value of 102%. Since the market value of the underlying securities is subject to daily market fluctuations, investments in repurchase agreements shall be in compliance if the value of the underlying securities is brought back up to 102% no later than the next business day. Use of mortgage-backed securities for collateral is not permitted. Strictly for purposes of investing the daily excess bank balance, the collateral provided by the Sacramento County's depository bank can be Treasuries or Agencies valued at 110%, or mortgage-backed securities valued at 150%.

H. Community Reinvestment Act Program

The Director of Finance has allocated within the Pooled Investment Fund, a maximum of \$90 million for the Community Reinvestment Act Program to encourage community investment by financial institutions, which includes community banks and credit unions, and to acknowledge and reward local financial institutions which support the community's financial needs. The Director of Finance may increase this amount, as appropriate, while staying within the investment policy objectives and maximum maturity and concentration limits. The eligible banks and savings banks must have Community Reinvestment Act performance ratings of "satisfactory" or "outstanding" from each financial institution's regulatory authority. The minimum credit requirements are located on page 5 of Section IX.D.

I. Criteria and Qualifications of Brokers/Dealers and Direct Issuers

All transactions initiated on behalf of the Pooled Investment Fund and Sacramento County shall be executed through either government security dealers reporting as primary dealers to the Market Reports Division of the Federal Reserve Bank of New York or direct issuers that directly issue their own securities which have been placed on the Approved List of

brokers/dealers and direct issuers. Further, these firms must have an investment grade rating from at least two national rating services, if available.

Brokers/Dealers and direct issuers which have exceeded the political contribution limits, as contained in Rule G-37 of the Municipal Securities Rulemaking Board, within the preceding four-year period to the Director of Finance, any member of the Board of Supervisors, or any candidate for the Board of Supervisors, are prohibited from the Approved List of brokers/dealers and direct issuers.

Each broker/dealer and direct issuer will be sent a copy of this Policy and a list of those persons authorized to execute investment transactions. Each firm must acknowledge receipt of such materials to qualify for the Approved List of brokers/dealers and direct issuers.

Each broker/dealer and direct issuer authorized to do business with Sacramento County shall, at least annually, supply the Director of Finance with audited financial statements.

J. Investment Guidelines, Management Style and Strategy

The Investment Group, named by the Director of Finance, shall issue and maintain Investment Guidelines specifying authorized investments, credit requirements, permitted transactions, and issue maturity and concentration limits which are consistent with this Policy.

The Investment Group shall also issue a statement describing the investment management style and current strategy for the entire investment program. The management style and strategy can be changed to accommodate shifts in the financial markets, but at all times they must be consistent with this Policy and its objectives.

K. Approved Lists

The Investment Group, named by the Director of Finance, shall issue and maintain various Approved Lists. These lists are:

1. Approved Domestic Banks for all legal investments.
2. Approved Foreign Banks for all legal investments.
3. Approved Commercial Paper and Medium Term Note Issuers.
4. Approved Money Market Mutual Funds.
5. Approved Firms for Purchase or Sale of Securities (Brokers/Dealers and Direct Issuers).
6. Approved Banks / Credit Unions for the Community Reinvestment Act Program.

L. Calculation of Yield and Costs

The costs of managing the investment portfolio, including but not limited to: investment management; accounting for the investment activity; custody of the assets; managing and accounting for the banking; receiving and remitting deposits; oversight controls; and indirect and overhead expenses are charged to the investment earnings based upon actual labor hours worked in respective areas. Costs of these respective areas are accumulated by specific cost

accounting projects and charged to the Pooled Investment Fund on a quarterly basis throughout the fiscal year.

The Department of Finance will allocate the net interest earnings of the Pooled Investment Fund quarterly. The net interest earnings are allocated based upon the average daily cash balance of each Pooled Investment Fund participant.

X. Reviewing, Monitoring and Reporting of the Portfolio

The Review Group will prepare and present to the Director of Finance at least monthly a comprehensive review and evaluation of the transactions, positions, performance of the Pooled Investment Fund and compliance to the California Government Code, Policy, and Investment Guidelines.

Quarterly, the Director of Finance will provide to the Oversight Committee and to any local agency participant that requests a copy, a detailed report on the Pooled Investment Fund. Pursuant to California Government Code section 53646, the report will list the type of investments, name of issuer, maturity date, par and dollar amount of the investment. For the total Pooled Investment Fund, the report will list average maturity, the market value, and the pricing source. Additionally, the report will show any funds under the management of contracting parties, a statement of compliance to the Policy and a statement of the Pooled Investment Fund's ability to meet the expected expenditure requirements for the next six months.

Each quarter, the Director of Finance shall provide to the Board of Supervisors and interested parties a comprehensive report on the Pooled Investment Fund.

Annually, the Director of Finance shall provide to the Oversight Committee the Investment Policy. Additionally, the Director of Finance will render a copy of the Investment Policy to the legislative body of the local agencies that participate in the Pooled Investment Fund.

XI. Withdrawal Requests for Pooled Fund Investors

The Director of Finance will honor all requests to withdraw funds for normal cash flow purposes that are approved by the Director of Finance at a one dollar net asset value. Any requests to withdraw funds for purposes other than immediate cash flow needs, such as for external investing, are subject to the consent of the Director of Finance. In accordance with California Government Code Sections 27133(h) and 27136, such requests for withdrawals must first be made in writing to the Director of Finance. When evaluating a request to withdraw funds, the Director of Finance will take into account the effect of a withdrawal on the stability and predictability of the Pooled Investment Fund and the interests of other depositors. Any withdrawal for such purposes will be at the market value of the Pooled Investment Fund on the date of the withdrawal.

XII. Limits on Honoraria, Gifts, and Gratuities

In accordance with California Government Code Section 27133(d), this Policy establishes limits for the Director of Finance; individuals responsible for management of the portfolios; and members of the Investment Group and Review Group who direct individual investment decisions,

select individual investment advisors and broker/dealers, and conduct day-to-day investment trading activity. The limits also apply to members of the Oversight Committee. Any individual who receives an aggregate total of gifts, honoraria and gratuities in excess of \$50 in a calendar year from a broker/dealer, bank or service provider to the Pooled Investment Fund must report the gifts, dates and firms to the designated filing official and complete the appropriate State forms.

No individual may receive aggregate gifts, honoraria, and gratuities from any single source in a calendar year in excess of the amount specified in Section 18940.2(a) of Title 2, Division 6 of the California Code of Regulations. This limitation is \$500 for the period January 1, 2019, to December 31, 2020, and is adjusted for inflation every odd-numbered year. Any violation must be reported to the State Fair Political Practices Commission.

XIII. Terms and Conditions for Outside Investors

Outside investors may invest in the Pooled Investment Fund through California Government Code Section 53684. Their deposits are subject to the consent of the Director of Finance. The legislative body of the local agency must approve the Sacramento County Pooled Investment Fund as an authorized investment and execute a Memorandum of Understanding. Any withdrawal of these deposits must be made in writing 30 days in advance and will be paid based upon the market value of the Pooled Investment Fund. If the Director of Finance considers it appropriate, the deposits may be returned at any time to the local agency.

Fitch Support Ratings

Rating	Interpretation
1	A bank for which there is an extremely high probability of external support. The potential provider of support is very highly rated in its own right and has a very high propensity to support the bank in question. This probability of support indicates a minimum Long-Term Rating floor of 'A-'.
2	A bank for which there is a high probability of external support. The potential provider of support is highly rated in its own right and has a high propensity to provide support to the bank in question. This probability of support indicates a minimum Long-Term Rating floor of 'BBB-'.
3	A bank for which there is a moderate probability of support because of uncertainties about the ability or propensity of the potential provider of support to do so. This probability of support indicates a minimum Long-Term Rating floor of 'BB-'.
4	A bank for which there is a limited probability of support because of significant uncertainties about the ability or propensity of any possible provider of support to do so. This probability of support indicates a minimum Long-Term Rating floor of 'B'.
5	A bank for which external support, although possible, cannot be relied upon. This may be due to a lack of propensity to provide support or to very weak financial ability to do so. This probability of support indicates a Long-Term Rating floor no higher than 'B-' and in many cases no floor at all.

Appendix A

Fitch Sovereign Risk Ratings

<i>Rating</i>	<i>Interpretation</i>
AAA	Highest credit quality. 'AAA' ratings denote the lowest expectation of default risk. They are assigned only in cases of exceptionally strong capacity for payment of financial commitments. This capacity is highly unlikely to be adversely affected by foreseeable events.
AA	Very high credit quality. 'AA' ratings denote expectations of very low default risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.
A	High credit quality. 'A' ratings denote expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.
BBB	Good credit quality. 'BBB' ratings indicate that expectations of default risk are currently low. The capacity for timely payment of financial commitments is considered adequate but adverse business or economic conditions are more likely to impair this capacity.
BB	Speculative. 'BB' ratings indicate an elevated vulnerability to default risk, particularly in the event of adverse changes in business or economic conditions over time.
B	Highly speculative. 'B' ratings indicate that material default risk is present, but a limited margin of safety remains. Financial commitments are currently being met; however, capacity for continued payment is vulnerable to deterioration in the business and economic environment.
CCC	High default risk. Default is a real possibility.
CC	Very high levels of credit risk. Default of some kind appears probable.
C	Exceptionally high levels of credit risk. Default appears imminent or inevitable.
D	<p>Default. Indicates a default. Default generally is defined as one of the following:</p> <ul style="list-style-type: none"> • Failure to make payment of principal and/or interest under the contractual terms of the rated obligation; • The bankruptcy filings, administration, receivership, liquidation or other winding-up or cessation of the business of an issuer/obligor; or • The coercive exchange of an obligation, where creditors were offered securities with diminished structural or economic terms compared with the existing obligation.
